BATCHING PLANTS

- Glass Plants
- Construction Chemicals
- AAC Plants
- Putty Plants
- Chemical Plants
- Cement & Concrete Plants
- Pipes & Pavers
- Ceramic Plants
- Sludge Agglomeration
- Electrode Paste
- Pharmaceutical Plant
- Special Applications

ENWEIGH

ENWEIGH INDIA PVT. LTD.

www.enweigh.in

We are experts in the handling of raw materials and shards for the glass, putty, mortar, dry mix industries. Our core expertise is therefore planning and construction of modern plants. We offer the Batching plants which are fully integrated & comprehensive. Real-time solutions are based on hardware and software platforms using contemporary technologies. Our experience and the constant endeavor for precision is the basis for excellent solutions with optimum standard, which also meets the customer's need and expectations.

Our SALIENT FEATURES are:-

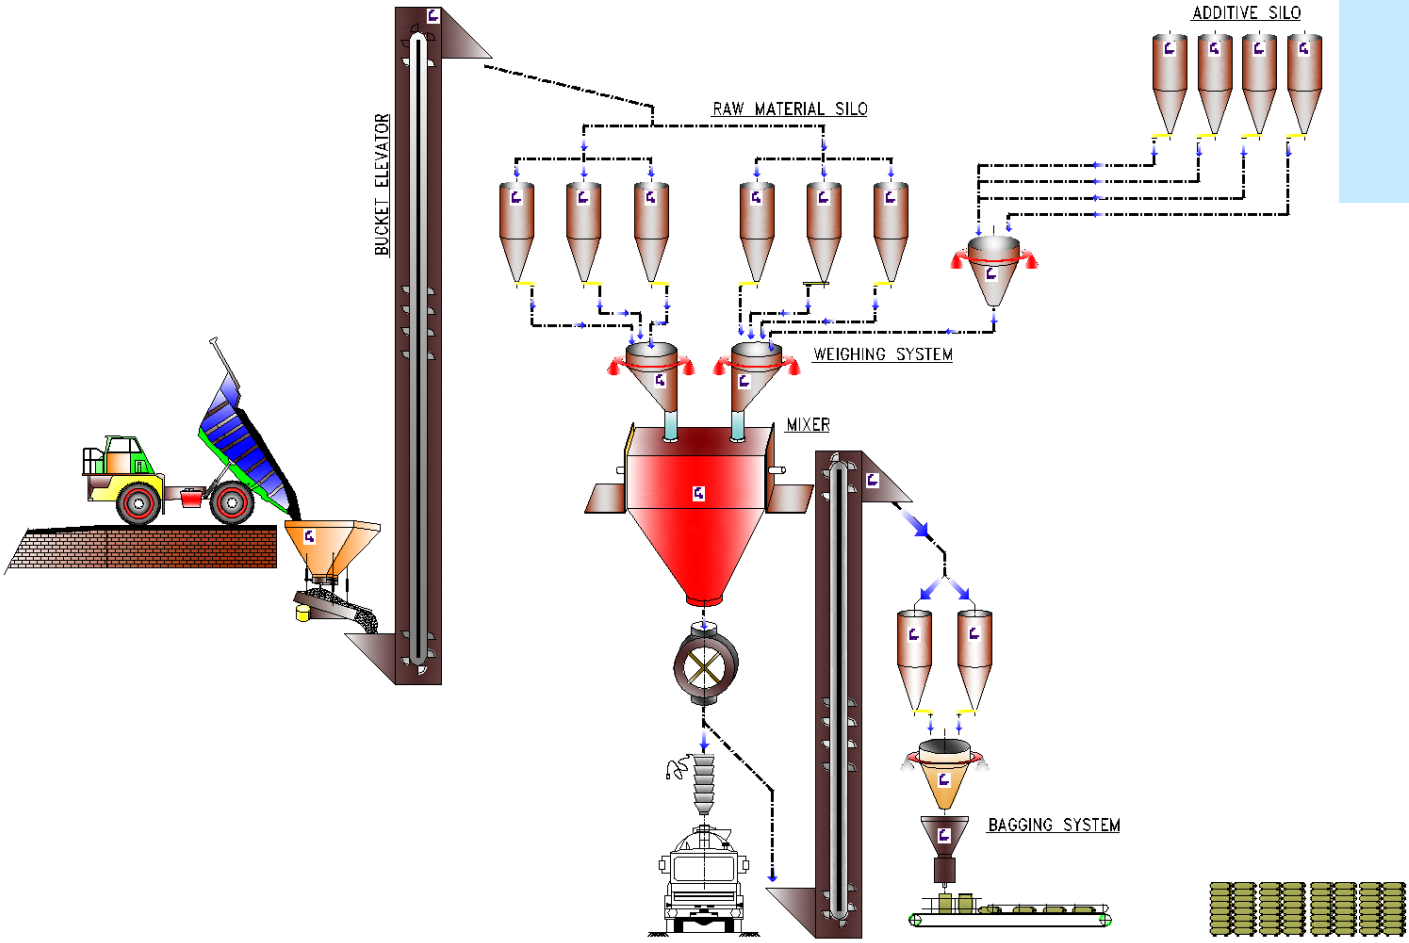

- Quality Batching.
- Rigid construction of main structure; fabricated from rolled mild steel material.
- Instant and understandable access to all relevant information.
- Intelligent fault message system.
- Optimum use of energy, and basic raw materials.
- Full access to the process through an operating interface.
- Low wear and maintenance using wear-resistant materials and sealed bearings.
- Low environmental impact due to low dust and noise levels
- The plant is designed, depending on the type of mixer.
- System design, application engineering, application software, documentation, commissioning, and after-sales services.

ENWEIGH INDIA PVT. LTD. is in the industry for its ability to conceptualize, design, erect, and commission Batching Plants successfully. We supply all the components required for the handling and storage of raw materials, in any variation. This includes various types of bin systems for the separate storage of raw materials along with dosing devices for different aggregates.

Our business areas cater to Glass Plants, Construction Chemicals, AAC Plants, Putty Plants, Chemical Plants, Cement & Concrete Plants, Pipes & Pavers, Ceramic Plants, Sludge Agglomeration, Electrode Paste, Pharmaceutical Plant and Special Applications.

AREAS OF INTEREST AND OUR CAPABILITIES.

- Proposal, Engineering & development of individual concepts.
- Design & Engineering of modernized plant / a high modular design.
- Planning, organizing, and managing resources to bring about the successful completion of specific project goals and objectives.
- Materials management.
- Reduced costs and time for installation and an easy upgradation.
- Total turnkey services.
